WORKING REGULATIONS OF THE 2025 ANNUAL GENERAL MEETING OF SHAREHOLDERS

--

Pursuant to the Law on Enterprises 2020; the Law amending and supplementing a number of articles of the Law on Enterprises and related guiding documents;

Pursuant to the Charter of Bac Kan Mineral Joint Stock Company;

To ensure transparency, fairness, and democracy, and to facilitate the organization of the Annual General Meeting of Shareholders, the Board of Directors respectfully submits to the 2025 Annual General Meeting of Shareholders (“AGM”) of Bac Kan Mineral Joint Stock Company the following Working Regulations for adoption:

I. ORDER AND DISCIPLINE OF THE MEETING

1. All shareholders attending the AGM must dress appropriately.
2. Shareholders must sit in the correct area as arranged by the Organizing Committee. Compliance with seating arrangements is strictly required.
3. Smoking is strictly prohibited inside the meeting hall.
4. Private conversations and the use of mobile phones during the AGM are not allowed. All phones must be turned off or set to silent mode.
5. Shareholders/authorized representatives must attend the meeting from beginning to end. In case of force majeure requiring early departure, the shareholder/representative must notify the Organizing Committee and submit a written vote on matters to be decided at the AGM.

II. RIGHTS AND OBLIGATIONS OF PARTICIPANTS

1. Shareholders

1.1. Eligibility to attend the AGM:

All shareholders owning BKC shares as listed by the Vietnam Securities Depository and Clearing Corporation (VSDC) as of May 20, 2025, or those with valid proxy authorization.

1.2. Rights and obligations of eligible shareholders:

a. Shareholders or their authorized representatives (hereinafter referred to as “shareholders”) must bring:

- Invitation letter to the meeting

- Original ID card/Citizen ID/Passport
- Original Power of Attorney and copies of identification documents and/or Enterprise Registration Certificate of the authorizer (if applicable)

(For individual shareholders, the Power of Attorney must be signed by the shareholder. For organizations, it must be signed and sealed by the legal representative.)

After presenting the above-mentioned documents to the Shareholder Eligibility Verification Committee, the shareholder attending the General Meeting will receive one (01) Voting Card. The Voting Card clearly states the shareholder's full name, the participation code (assigned by the Organizing Committee to each shareholder), and the number of voting rights (corresponding to the number of shares owned by the shareholder as of May 20, 2025 – the record date for exercising the right to attend the 2025 Annual General Meeting of Shareholders).

b. Shareholders may attend and exercise their voting rights in person or may authorize, in writing, a proxy to attend and vote on their behalf at the General Meeting of Shareholders (GMS). The authorized representative is not permitted to delegate their authority to another person. In cases where more than one representative is appointed, the number of shares and corresponding voting rights assigned to each representative must be clearly specified.

c. Shareholders attending the GSM who wish to speak during discussions must obtain the Chairperson's approval; their remarks should be brief and focused on the key issues relevant to the approved agenda of the meeting. Issues that have already been addressed by previous speakers should not be repeated to avoid redundancy. Shareholders may also write their questions on the provided question form and submit it to the Meeting Secretariat.

d. Shareholders have the right to vote on all matters under the authority of the AGM per the Company Charter.

e. Shareholders attending the General Meeting of Shareholders (GMS), after listening to the reports on the matters to be approved, shall participate in discussions and vote on these matters.

f. During the course of the meeting, shareholders must comply with the instructions of the Chairperson, behave in a respectful and civil manner, and refrain from causing disruption or disorder that could affect the meeting's proceedings.

g. Shareholders arriving late to the meeting have the right to register upon arrival; once registration is completed, they may attend and participate in the voting on the remaining matters on the agenda as approved. The Chairperson is not obliged to pause the meeting to allow latecomers to register, and the validity of votes already conducted prior to their arrival will not be affected.

2. Chairperson's Rights and Duties

2.1. The Chairman of the Board of Directors (BOD) shall act as the Chairperson of the General Meeting of Shareholders (GMS).

2.2. The Chairman of the Board may authorize another member of the Board of Directors to act as the Chairperson of the GMS convened by the Board. In the event that the Chairman is absent, the remaining members of the Board shall elect one among themselves to chair the meeting, based on the majority principle. If no Chairperson can be elected, the Head of the Supervisory Board shall preside over the meeting to facilitate the election of a Chairperson by the GMS, and the person receiving the highest number of votes shall serve as the Chairperson of the meeting.

2.3. Duties of the Chairperson of the General Meeting:

- To preside over the meeting in accordance with the agenda, procedures, and regulations approved by the General Meeting.

- To guide the discussions and voting on the matters within the agenda and any relevant issues arising during the course of the meeting.

- To introduce the Meeting Secretariat and the Vote Counting Committee and present them for approval by the General Meeting.

- To present draft resolutions and other necessary matters for the General Meeting to vote on.

- To respond to matters raised by the shareholders and address any issues arising during the meeting.

- To handle any complaints related to the General Meeting of Shareholders, if any.

2.4. The Chairperson shall have the authority to take necessary measures to conduct the meeting in a fair, orderly, and agenda-compliant manner that reflects the will of the majority of attendees:

- To require all participants to undergo inspection or other security procedures.

- To instruct relevant departments to maintain order during the meeting; and to expel any individuals who do not comply with the Chairperson's instructions, intentionally cause disruptions, obstruct the normal proceedings of the meeting, or fail to comply with security inspection requirements.

2.5. The Chairperson has the right to postpone a General Meeting of Shareholders that has met the quorum requirements to a later time or to change the meeting venue, provided that such postponement or change does not exceed three (03) days from the officially scheduled meeting date, in the following cases:

- The venue does not have sufficient seating or facilities to accommodate all attending shareholders;

- There are individuals present who are obstructing or disrupting the meeting,

creating a risk that the meeting cannot proceed in a fair and lawful manner.

3. Rights and Duties of the Shareholder Eligibility Verification Committee at the General Meeting of Shareholders (GMS):

The Shareholder Eligibility Verification Committee is established by the Organizing Committee of the General Meeting. Its responsibilities include verifying documents, confirming the validity of attendees, distributing meeting materials, Voting Cards, and Ballots to participants; and reporting the results of the eligibility verification to the General Meeting before the official proceedings begin.

4. Rights and Duties of the Meeting Secretariat of the GMS

4.1. The Meeting Secretariat is introduced by the Chairperson and approved by the General Meeting through a vote.

4.2. The Secretariat assists the Chairperson with the following tasks:

- Accurately and fully recording the proceedings of the meeting and all matters approved or reserved by shareholders during the meeting;
- Drafting and assisting the Chairperson in announcing the Meeting Minutes and the Resolutions approved at the GMS;
- Receiving shareholder question forms via the Support Team.

5. Rights and Duties of the Vote Counting Committee

5.1. The Vote Counting Committee is introduced by the Chairperson and approved by the General Meeting through a vote.

5.2. The Vote Counting Committee is responsible for:

- Tallying and summarizing the number of voting shares for each agenda item;
- Distributing ballots, counting votes, and announcing voting results;
- Reporting the results to the Chairperson and the Secretariat, and publicly announcing the results to the General Meeting;
- Reviewing and reporting to the General Meeting any violations of election procedures or complaints related to the election;
- Ensuring the accuracy of voting results from shareholders during the Annual General Meeting.

III. CONDITIONS FOR CONDUCTING THE GENERAL MEETING AND VOTING ON ISSUES AT THE MEETING

1. Conditions for Conducting the Meeting

The General Meeting of Shareholders (GMS) shall be conducted when shareholders present represent more than 50% of the total voting shares of the Company.

2. Principles and Procedures for Conducting the Meeting

- The meeting will sequentially discuss and approve the items listed in the agenda

of the GMS.

- All matters on the agenda must be approved by an open vote of all shareholders, using Voting Cards based on the number of shares owned and/or authorized. Each shareholder is issued one Voting Card and one ballot, which include the shareholder's code, number of voting rights, and the voting content (*bearing the official seal of Bac Kan Mineral Joint Stock Corporation*).

3. Voting Method

- Shareholders vote on each issue in the order of "Agree," "Disagree," or "No Opinion" by voting directly at the General Meeting.

- When voting to approve an issue raised at the meeting, shareholders who agree raise their Voting Cards high. Members of the Vote Counting Committee will mark the shareholder codes and the corresponding number of voting rights on the Voting Cards of those who agree. The same procedure applies for other voting options.

Shareholders then mark the corresponding box on the Ballot for the votes they have cast with their Voting Card and submit it to the Organizing Committee.

4. Voting Regulations

- Each share owned or represented corresponds to one voting right.

- A resolution of the General Meeting is approved if shareholders holding more than 50% of the total voting rights of all shareholders attending and voting at the meeting agree. For resolutions involving amendments or supplements to the Charter; types and total number of shares of each type; changes to the organization or structure of the Company; reorganization or dissolution of the enterprise; investment projects or sale of assets valued at 35% or more of the total assets stated in the Company's most recent financial report, approval requires shareholders representing at least 65% of the total voting rights of all shareholders attending and voting at the meeting.

IV. SPEAKING AT THE GENERAL MEETING

1. Principles

Shareholders attending the General Meeting who wish to speak must obtain permission from the Chairperson. Discussions are only allowed during the allocated time and must be related to the issues on the agenda. Shareholders who wish to speak must register their questions on a Question Form and submit it to the Meeting Secretariat. The Secretariat will arrange the questions in the order of registration and submit them to the Chairperson.

2. Speaking Procedure

Shareholders should speak briefly and focus on the key points relevant to the approved agenda, avoiding offensive language or behavior that disrupts the meeting. The Chairperson will arrange speaking turns according to the agenda and registration order, and respond to shareholders' inquiries. The Chairperson has the right to remind or request shareholders to focus on the main points to save time and ensure the quality

of the discussion.

V. MINUTES AND RESOLUTIONS OF THE GENERAL MEETING

1. All matters discussed at the General Meeting must be recorded by the Meeting Secretary in the meeting minutes.
2. The minutes must be completed and approved before the meeting is adjourned.
3. The minutes must be kept at the headquarters of Bac Kan Mineral Joint Stock Corporation, located at Group 4, Duc Xuan Ward, Bac Kan City, Bac Kan Province.

The above is the working regulation for the 2025 Annual General Meeting of Bac Kan Mineral Joint Stock Company.

Respectfully submitted to the General Meeting for consideration and approval.

REPORT
ON THE ACTIVITIES OF THE BOARD OF DIRECTORS IN 2024
AND OPERATIONAL ORIENTATION FOR 2025

--

Based on the 2020 Enterprise Law and Decree No. 155/2020/ND-CP dated December 31, 2020, of the Government detailing the implementation of certain provisions of the Securities Law, the Board of Directors (“BOD”) of Bac Kan Mineral Joint Stock Company (“the Company”) hereby reports to the General Meeting of Shareholders (“GMS”) on the operational results of 2024 and the operational plan for 2025 as follows:

I. GENERAL SITUATION

1. In 2024, the global situation continued to be complex with many risks and uncertainties. Military conflicts, especially in Eastern Europe and the Middle East, escalated; strategic competition among major powers intensified; trade protectionism policies tightened in many large economies; while public debt and budget deficits increased. Several major economies experienced localized recessions, and global supply chains remained disrupted, negatively impacting peace, stability, and the momentum of global economic recovery. However, thanks to flexible fiscal and monetary policy measures implemented by countries, the world economy showed signs of stabilization. Global trade in goods gradually recovered, inflationary pressures eased, credit conditions loosened, and labor markets rebounded positively.

In Vietnam, 2024 marked a year of flexible and decisive macroeconomic management by the Government. Core inflation was controlled, exchange rates remained stable, and manufacturing and processing industries recovered strongly. State budget revenues exceeded targets; the investment environment continued to improve; new-generation foreign direct investment (FDI) increased, reflecting international investors’ confidence in Vietnam’s long-term economic prospects.

GDP growth in 2024 reached 7.09%, surpassing the National Assembly’s target and ranking among the highest in the region. This is considered a bright spot amid the slowdown of many economies, laying a solid foundation for the development period 2025–2030.

*** Advantages:**

- The Company currently focuses primarily on its core business activities, which are mineral mining and processing, with an emphasis on deep processing operations;

- The Company's financial situation is healthy, stable, and timely meets the financial needs for its production and business activities, especially for the development of the Thanh Thinh Industrial Cluster in Cho Moi District;

- The organizational structure and production management system of the Company have been gradually improved and optimized, effectively utilizing the potential and technical skills of the workforce;

*** Challenges Affecting the Company's Production and Business Activities:**

- Production and business operations continue to face many difficulties due to the impact of the Russia-Ukraine conflict, instability in the Middle East and the Red Sea, causing high raw material prices and disrupted supply chains.

- State mechanisms and policies remain inadequate; administrative procedures are complicated and overlapping; organizational changes and the merger of local administrative units have delayed key projects (new waste reservoir, office building in Thai Nguyen, infrastructure of Thanh Thinh Industrial Cluster).

- The Company has not yet exploited new mines; existing mines are declining in output and ore quality, leading to raw material shortages for processing plants; alternative raw material sources remain unstable.

- The skilled labor force is increasingly scarce due to labor migration and changing job preferences; on-the-job training faces many difficulties; shortages of both unskilled and highly skilled labor continue to be a complex issue.

- Compliance awareness with regulations and laws among some workers remains limited; actual income has not kept pace with rising living costs.

2. The Board of Directors of Bac Kan Mineral Joint Stock Company for the 2021–2026 term was elected by the 2021 Annual General Meeting of Shareholders and consists of 5 members.

II. ACTIVITIES OF THE BOARD OF DIRECTORS IN 2024

1. General Activities

In accordance with the tasks stipulated in the 2020 Enterprise Law, the Company Charter, and the Corporate Governance Regulations, in 2024, the Board of Directors (BOD) organized 4 meetings and sought written opinions to discuss and decide on many important issues of the Company. The BOD issued 9 (nine) Resolutions and Decisions related to personnel matters, production and business activities, investment operations, capital needs, and the Company's development plans within its authority. The BOD continuously monitored economic developments and market fluctuations to provide timely direction for the Company's business activities.

The BOD successfully directed and organized the 2024 Annual General Meeting of Shareholders (AGM) and issued Resolution No. 01/2024/NQ-DHĐCĐ of the 2024 AGM on May 13, 2024, in compliance with regulations.

Additionally, the BOD prepared governance reports for 6 months and 1 year and carried out information disclosures in accordance with Government Decree No. 155/2020/ND-CP, Ministry of Finance Circular No. 96/2020/TT-BTC, regulations of the State Securities Commission, Hanoi Stock Exchange, and guidance from other competent authorities.

5. Supervisory Activities of the Board of Directors (BOD) and Supervision of the Executive Board

In accordance with the Company's Charter, Internal Corporate Governance Regulations, and prevailing laws, the Board of Directors supervises the Executive Board and other key management personnel in the day-to-day operations of the Company, including:

- Monitoring the implementation of Resolutions and Decisions of the General Meeting of Shareholders (GMS) and the BOD;

- The BOD closely follows the Company's operations and the management activities of the Executive Board. Through regular meetings and consultations via email, the BOD has discussed and provided feedback on many critical issues related to the Executive Board's operations. In addition, through direct and written reports from the General Director, the BOD remains well-informed about the Company's business performance and oversees the Executive Board's implementation of Resolutions passed by the GMS and the BOD;

The Company paid the remuneration to the Board of Directors in accordance with the Resolution of the 2024 Annual General Meeting of Shareholders and the Resolution of the Board of Directors regarding BOD remuneration. Specifically, the total remuneration for the Chairman and Members of the Board of Directors in 2024, as approved by the Annual General Meeting of Shareholders of Bac Kan Mineral Joint Stock Company under Resolution No. 01/2024/NQ-AGM dated May 13, 2024, was VND 1,080,000,000 (One billion and eighty million Vietnamese Dong).
Amount disbursed: VND 1,080,000,000.

IV. OPERATIONAL ORIENTATION FOR 2025

1. Socio-Economic Outlook for 2025

1.1. Global Economic Situation:

In 2025, the global economy faces the risk of slowing growth, primarily due to escalating trade tensions and the increasing prevalence of protectionist measures. According to the Organisation for Economic Co-operation and Development (OECD), global GDP growth is projected to reach 3.1%, a slight decrease from 3.3% in 2024.

Notably, the United States' implementation of a baseline 10% tariff policy and retaliatory tariffs ranging from 11% to 84% on many trade partners has created widespread negative ripple effects, threatening to disrupt global supply chains, fuel inflation, and weaken the rules-based international trading system. The growing risk of global economic fragmentation presents challenges for smaller countries in the integration process. However, this also opens up opportunities for countries like Vietnam, India, and Thailand to attract a wave of supply chain relocation, thanks to low labor costs and favorable investment environments.

1.2. Vietnam's Economic Outlook in 2025

Despite adverse international conditions, Vietnam has maintained stable growth momentum thanks to flexible and well-calibrated economic policies, along with the strong development of the private sector.

According to the World Bank (WB), Vietnam's real GDP growth is forecast to reach 6.8% in 2025 and 6.5% in 2026. The private sector continues to be the key driver of the economy, contributing over 50% of GDP and employing approximately 85% of the national labor force.

As reported by the Government, GDP growth in Q1/2025 reached 6.93%, marking the highest Q1 growth in the past five years and exceeding initial projections. To achieve the annual growth target of over 8%, Vietnam needs to attain an average

growth rate of 8.3% over the remaining three quarters (Q2: 8.2%, Q3: 8.3%, Q4: 8.4%).

However, a notable negative development occurred on April 2, 2025, when the United States announced a 46% retaliatory tariff on exports from Vietnam. This “tariff shock” is expected to result in: A potential decline in GDP growth and export performance; An unstable trade environment affecting foreign direct investment (FDI) inflows; The USD/VND exchange rate surpassing 26,000 VND/USD, posing risks of imported inflation. Industries directly impacted include: steel, aluminum, automobiles, textiles and garments, electronics and components, furniture, agricultural and aquatic products, and industrial real estate.

1.3. Business and Production Performance of Bac Kan Mineral Joint Stock Corporation in 2025

* Amid increasingly complex developments in both domestic and international economic contexts, Bac Kan Mineral Joint Stock Company continues to face numerous challenges in its business and production activities:

- Mineral exploitation: The Na Bop – Pu Sap mining area has experienced a significant decline in both ore grade and quality due to long-term extraction.

- Human resources: The company is facing a serious shortage of unskilled labor due to several reasons: Labor migration to other provinces; Intensifying competition for labor among enterprises both inside and outside the province; Workers now have more choices in terms of working conditions and income levels.

** Strategic Orientation of the Company:*

- Metallurgy remains the Company’s core focus. The Company aims to maintain stable operations at the Lead Smelting Plant and the Zinc Oxide Powder Plant.

- The Company is determined to complete the technical infrastructure of Phase I of Thanh Thinh Industrial Cluster by Q3/2025 in order to proceed with the installation of machinery and equipment for the 20,000-ton/year zinc smelting and electrolysis plant in Q3 and Q4/2025, with trial operation scheduled for early 2026.

- The Company will continue to finalize legal procedures and develop the technical infrastructure for Phase II, aiming for full commercial operation of the entire Thanh Thinh Industrial Cluster and the development of factories within the production complex in 2026.

3. Operational Directions of the Board of Directors in 2025

In 2025, amid a context of multiple challenges intertwined with opportunities, the Board of Directors (BOD) defines its operational directions with a proactive and decisive spirit, linking management responsibilities with sustainable development strategies. The focus will be on the following key tasks:

3.1. Enhancing Strategic Orientation and Management Supervision

The Board of Directors will continue to effectively fulfill its role in guiding, leading, and comprehensively supervising the General Director, based on coordination, support, and facilitating the most favorable mechanisms, policies, human resources, and infrastructure. The objective is to ensure that all management activities are implemented efficiently, cohesively, and in line with the strategic direction approved by the General Meeting of Shareholders.

3.2. Focusing on Directing and Flexibly Adjusting the 2025 Business and Production Plan

The BOD will closely cooperate with the General Director and the Company's Executive Board in developing, reviewing, and adjusting the 2025 business and production plan in a flexible, timely manner, and within proper authority, to ensure optimal effectiveness of the entire production and business operations. Key focuses include:

* **Mineral exploitation activities:** Continue to effectively organize the exploitation of existing mines; simultaneously, complete the dossier to apply for exploration permits for mining sites that have been planned.

*** Ore processing:** Maintain cooperation with Thien Ma Group Co., Ltd. to carry out ore processing at Na Bop – Pu Sap and Na Duong mines according to actual extraction volume, ensuring a stable raw material supply chain for processing plants.

*** Industrial Infrastructure Investment in Metallurgy:**

- Expedite the completion of technical infrastructure for Phase I at Thanh Thinh Industrial Cluster (CCN Thanh Thinh), aiming to finish construction and equipment installation of the zinc smelting and electrolysis plant with a capacity of 20,000 tons/year in Q3 and Q4 of 2025, to commence trial operation from early 2026.

- Implement synchronized infrastructure development for Phase II at Thanh Thinh Industrial Cluster to prepare land and technical conditions for deep metallurgy projects.

*** Investment Attraction:**

- Attract investors to participate in capital contribution to establish an independent legal entity to operate Thanh Thinh Industrial Cluster, with total expected capital mobilization of up to VND 2,000 billion.

- Issue shares to increase the Company's charter capital from VND 117.38 billion to over VND 300 billion, creating a solid financial foundation to focus investment on key and foundational projects.

*** Investment in the Deep Metal Processing Complex:**

- Complete legal dossiers and carry out investments in the following components: Zinc sulfide processing plant, Zinc oxide dissolution plant, Zinc electrolysis plant, Copper electrolysis line, and auxiliary works within the metallurgy complex at Thanh Thinh Industrial Cluster.

- Proceed with legal procedures to implement the waste battery treatment project (120,000 tons/year) and the steel furnace dust and blast furnace dust treatment project (70,000 tons/year), creating additional secondary raw material sources for production while promoting a circular economy model and environmental protection.

*** Office Infrastructure Development:** It is planned to commence construction in Q3/2025 and complete the structural work of the Company's Office Building in Thai Nguyen City by 2026, aiming to enhance management capacity and prepare conditions for expanding the operational network.

3.3. Strengthening the Role, Functions, and Operational Efficiency of the Board of Directors

The Board of Directors will continue to restructure the apparatus and enhance the effectiveness in exercising its powers and responsibilities in accordance with the provisions of the Enterprise Law, the Company's Charter, and internal regulations. At the same time, it will continuously review, evaluate, and address existing shortcomings, promote innovation in working methods, and increase transparency in supervision and corporate governance activities.

The overarching goal is to build a strong, effective, and efficient Board of Directors that works closely with the Executive Board on all important decisions, aiming to develop the Company steadily and sustainably while increasingly meeting the expectations of shareholders and investors.

Respectfully reported.

**REPORT
SUPERVISORY BOARD ACTIVITIES IN 2024**

**To: The Annual General Meeting of Shareholders 2025
Bac Kan Mineral Joint Stock Corporation**

The Supervisory Board ("SB") of Bac Kan Mineral Joint Stock Company respectfully reports on its activities for the year 2024 as follows:

I. GENERAL SITUATION

In 2024, the Company's business and production activities experienced certain fluctuations. For one-fourth of the year, mining and mineral processing operations were under the direct supervision of an Inspection Delegation established and directed by the People's Committee of Bac Kan Province. Despite this, the Company successfully sold a considerable quantity of zinc sulfide products that had been in stock from previous years.

During the year, the Supervisory Board performed its functions and duties in accordance with the Company's Charter, including: Reporting on the Supervisory Board's activities in 2023 to the 2024 Annual General Meeting of Shareholders; Monitoring the activities of the Board of Directors ("BoD") and the Executive Board in the implementation of resolutions passed by the 2024 General Meeting of Shareholders and overseeing the Company's business operations; Attending all meetings of the BoD; Reviewing and appraising the 2023 audited financial statements; Proposing the selection of the audit firm for the 2024 fiscal year.

II. IMPLEMENTATION OF BUSINESS AND PRODUCTION PLAN

1. Results of Business and Production Activities:

Despite facing numerous difficulties in both production and business operations, the Company achieved notable success in 2024. This was largely due to the experienced leadership team, particularly the strategic direction provided by the Chairman of the Board of Directors (BoD), the BoD members, and the Executive Board. These achievements are reflected in the key performance indicators shown in the table below:

Table 1: Revenue and Profit Indicators for 2024

Unit: Billion VND

No.	Indicator	2024 Plan	2024 Actual	2023 Actual	% of Plan Achieved	Comparison with 2023
1	Total Revenue	437,7	567,48	439,95	130%	129%
2	Net Profit After Tax	5,2	51,869	5,129	997%	1.011%

The Supervisory Board's Assessment of the Company's Business Performance in 2024:

- Regarding product consumption: Although the consumption of lead metal and zinc oxide powder did not fully meet the plan, the global zinc price surged significantly in 2024. The Company successfully sold a large volume of zinc concentrate stockpiled from previous years, which led to a favorable financial position.

- Compared to the plan and the results of 2023, both revenue and net profit after tax in 2024 increased. Specifically, revenue in 2024 rose by 29% compared to 2023, while net profit after tax soared by 911%.

- The profit margin based on revenue in 2024 was 9.14%, indicating that for every VND 10,000 of revenue, the Company earned VND 914 in profit.

- The return on assets (ROA) in 2024 was 12.12%, meaning that for every VND 10,000 of assets, VND 1,212 of profit was generated — a significant improvement over 2023, which generated only VND 139 of profit per VND 10,000.

- The return on equity (ROE) in 2024 was 22.08%, indicating that for every VND 10,000 of equity, VND 2,208 of profit was generated, also a considerable increase compared to 2023, which yielded only VND 280 of profit per VND 10,000.

2. Implementation Status of Investment Projects in 2024

At the 2024 Annual General Meeting of Shareholders, five investment projects were reviewed and approved for implementation during the year. During discussions, the Supervisory Board provided the following opinions on the progress of certain specific projects:

✚ **Tailings Storage Facility Project at the Ore Processing Plant:** The facility has been constructed and completed. The Supervisory Board recommends that the Executive Board urgently coordinate with relevant authorities to finalize all required legal documentation and procedures to ensure the facility can be officially put into operation as soon as possible.

✚ **Head Office Building Project in Thai Nguyen Province:** This project has been under planning and discussion for many years and has been presented in multiple meetings of the Board of Directors and the Executive Board. However, the implementation progress remains unsatisfactory. The Supervisory Board requests that the General Director provide a detailed report clarifying both

objective and subjective causes of the delays and propose appropriate corrective measures moving forward.

🏗️ **Thanh Thinh Industrial Cluster Development Project:** The Supervisory Board notes that the disbursed capital currently accounts for only 22% of the total planned investment. The Executive Board is requested to explain the reasons for the low disbursement rate and propose solutions to accelerate the implementation progress, in order to meet the committed timelines to shareholders and regulatory authorities.

🏗️ **Zinc Smelting and Electrolysis Plant Project:** As of the date of the General Meeting, no investment funds have been disbursed for this project despite an approved implementation plan. The Supervisory Board requests a detailed report from the Executive Board explaining the reasons for the lack of disbursement and providing a timeline for the project's implementation in the upcoming period.

III. FINANCIAL STATUS

Based on the audited Financial Statements for the year 2024, the Supervisory Board summarizes several key financial indicators as follows:

Table 2: Key Financial Indicators as of December 31, 2024

Unit: VND

Indicator	As of 31/12/2024	As of 01/01/2024
1. Total Assets	428.046.906.095	368.457.837.358
<i>In which:</i>		
- Cash and Cash Equivalents	143.694.292.293	27.424.122.422
- Short-term Receivables	39.494.748.451	80.038.622.855
- Inventories	87.115.328.316	146.117.484.978
- Other Short-term Assets	14.652.833.271	12.754.636.390
- Long-term Receivables	2.136.456.485	1.895.504.406
- Fixed Assets (Net Book Value)	43.631.497.699	55.802.932.869
- Construction in Progress	11.902.048.907	6.595.777.186
- Long-term Financial Investments	28.570.216.075	22.257.416.075
- Other Long-term Assets	56.849.484.598	15.571.340.177
2. Total Liabilities and Equity	428.046.906.095	368.457.837.358
<i>In which:</i>		
- Short-term Liabilities	160.692.053.433	155.008.443.033
- Long-term Liabilities	32.426.456.485	30.390.000.000

Indicator	As of 31/12/2024	As of 01/01/2024
- Owner's Contributed Capital	117.377.280.000	117.377.280.000
- Share Premium	17.052.895.190	17.052.895.190
- Development Investment Fund	15.574.071.618	15.574.071.618
- Retained Earnings	84.924.149.369	33.055.147.517

From the above table, the Company's liquidity capacity in 2024 can be assessed as follows:

- Overall Solvency Ratio in 2024 is 2.22, which is very good. This means that for every VND 1 of liabilities, there is VND 2.22 of assets to cover it. This ratio has also improved compared to 2023 (overall solvency ratio in 2023 was 1.99).

- Current Ratio in 2024 is 1.77, indicating that the ability to cover short-term liabilities using current assets is not yet high; the level of security provided by current assets is still relatively low. However, it has improved compared to 2023 (current ratio in 2023 was 1.72).

- Quick Ratio in 2024 is 1.23, which reflects that the company's short-term liquidity is not very strong; capital is somewhat tied up, reducing capital efficiency. In comparison, the quick ratio in 2023 was only 0.78, indicating that liquidity difficulties were more severe last year.

IV. MANAGEMENT AND OPERATIONS OF THE BOARD OF DIRECTORS AND GENERAL DIRECTOR

1. Supervisory Activities of the Supervisory Board

1.1. For the Board of Directors (BOD)

The Board of Directors comprises five members. In 2024, the Supervisory Board attended all official meetings of the BOD. During the year, the BOD convened four formal meetings and conducted multiple rounds of written consultation via email to discuss and resolve key issues concerning the strategic development of the Company.

The contents presented at the meetings were well-prepared and serious; BOD members participated in discussions openly and democratically, and resolutions were voted on in accordance with the procedures and regulations set out in the Company's Charter. The number of attending members met the quorum requirements for valid decision-making.

In 2024, the BOD issued nine (09) resolutions and decisions related to business operations, investments, capital management, and legal compliance in information disclosure. Through its oversight activities, the Supervisory Board observed that the BOD had fully and promptly implemented the resolutions of the General Meeting of Shareholders as well as its own resolutions, in compliance with regulations and aligned with the Company's development strategy.

1.2. For the Executive Board (General Director and Management Team)

The Executive Board strictly adhered to the implementation of resolutions passed by the General Meeting of Shareholders and the Board of Directors, managing the Company's business operations in accordance with the functions, duties, and powers defined in the Company Charter.

- On business operations management: Despite various external challenges in 2024, under the close guidance of the Board of Directors and the strong determination of the Executive Board, the Company gradually overcame difficulties, maintained effective production and business activities, ensured stable income for employees, and strengthened their trust and long-term commitment to the Company.

- On production planning and material supply: The Company assigned monthly targets to departments and units, while applying a transparent reward-and-penalty mechanism to encourage labor productivity, especially during production emulation campaigns.

- On accounting: The accounting department made commendable efforts to ensure timely and accurate preparation and submission of financial reports. However, the Supervisory Board noted discrepancies between the pre-audit and post-audit financial statements, which should be further addressed and corrected.

- On the progress of investment projects: The Supervisory Board recommends that the Executive Board accelerate the implementation of projects already approved by the previous General Meeting of Shareholders to meet shareholder expectations and ensure growth targets.

1.3. Regarding Shareholders

Through its supervisory activities, the Supervisory Board did not detect any violations by shareholders related to the Securities Law or obligations of information disclosure. In 2024, the Supervisory Board also did not receive any complaints or feedback from shareholders regarding violations by the Board of Directors, the Supervisory Board, or management officials during the performance of their duties.

2. Coordination of Activities

Throughout the execution of its assigned functions and duties, the Supervisory Board consistently received close cooperation and positive support from the Board of Directors, the Executive Board, and other departments and management personnel within the Company. This cooperation contributed to enhancing the effectiveness of supervisory activities and ensuring transparency and objectivity in corporate governance and business management.

3. Conclusion and Recommendations

Based on the supervisory results in 2024, the Supervisory Board evaluates that:

- The Board of Directors and the General Director have performed their duties and exercised their authority in accordance with the law and the Company's Charter;
- Business operations have remained stable amid many challenges;
- Coordination among the Company's departments has improved positively;

• However, some issues such as the progress of investment projects and the quality of audited financial reports require attention and timely remedial measures.

Dear Delegates and Shareholders,

This is the Supervisory Board's activity report for 2024, respectfully submitted to the Annual General Meeting of Shareholders 2025 for consideration and feedback.

The Supervisory Board sincerely thanks the attention and guidance of the General Meeting of Shareholders, the cooperation of the Board of Directors, the General Director, and all Company staff during the past period.

Wishing all delegates and shareholders good health, happiness, and success.

Wishing the General Meeting a great success.

Respectfully,

Recipients:

**REPORT OF THE EXECUTIVE BOARD
BUSINESS PERFORMANCE RESULTS IN 2024 AND DEVELOPMENT
ORIENTATION, BUSINESS PLAN FOR 2025**

--

**To: The 2025 Annual General Meeting of Shareholders
Bac Kan Minerals Joint Stock Corporation**

Pursuant to Resolution No. 01/2024/NQ-ĐHĐCĐ dated May 13, 2024, of the 2024 Annual General Meeting of Shareholders of Bac Kan Minerals Joint Stock Company, the Executive Board respectfully reports on the business performance results of 2024 and the development orientation, business plan for 2025 as follows:

PART I: GENERAL SITUATION AND MINING SECTOR IN 2024

1. In 2024, the global economy continued to face numerous uncertainties due to complex geopolitical factors such as the prolonged conflict between Russia and Ukraine, escalating tensions in the Middle East, and rising trends of trade protectionism among major economies. The global supply chains have not yet fully recovered, while inflation remained high in many countries, putting pressure on production costs and slowing down global economic growth.

Domestically, Vietnam's economy maintained relatively good macroeconomic stability. Inflation was controlled, exchange rates remained stable, and the annual GDP growth rate reached 7.09%, exceeding the target set by the National Assembly. This outcome was driven by a strong recovery momentum from the manufacturing and processing sectors, public investment, and export activities.

Regarding the mining and mineral processing sector, 2024 was a year full of difficulties and challenges. The prices of raw materials and input fuels increased significantly, while demand declined in some key export markets due to logistics costs, import tariffs, and domestic inflation. Existing mines gradually depleted their reserves, and the pace of licensing for new mines remained slow, directly impacting the ability to ensure a stable supply of raw materials.

In this context, mining enterprises, including Bắc Kạn Mineral Joint Stock Corporation, proactively adapted by accelerating the application of technology in mining and processing, optimizing production processes, controlling costs, and implementing strategic investment projects to enhance internal capacity, gradually laying the foundation for stable growth and sustainable development in the coming period.

Moreover, although the time required to complete administrative procedures has been improved and streamlined, the flexibility in practical application remains limited. The processes are still rigid and have not kept pace with the urgent demands for rapid implementation of key projects. This has directly impacted the progress of several components such as the new tailings reservoir at Chợ Đồn, the office building in Thái Nguyên city, and the technical infrastructure construction project of the Thanh Thịnh Industrial Cluster in Chợ Mới district.

2. Advantages

In 2024, the Company continued to benefit from numerous internal and external favorable factors that helped stabilize production and maintain growth momentum. Specifically:

- **Decisive leadership and correct orientation from the Company's management:** With a hands-on, practical approach and quick responses to changes, the management promptly issued appropriate policies based on the situation at each time, contributing to maintaining stable production and ensuring effective operations.
- **A united and highly cohesive workforce:** The Company maintained smooth coordination between management levels and employees, promoting a spirit of solidarity, collective effort, and overcoming difficulties to complete assigned tasks.
- **Active support from local authorities:** The provincial authorities of Bắc Kạn consistently accompanied and provided timely assistance in resolving difficulties and obstacles related to legal and administrative procedures, creating favorable conditions for the Company to effectively implement its production and business plans.

3. Difficulties

Alongside the advantages, the Company also faced several systemic and industry-specific challenges, including:

- **Increasing production cost pressures:** Prices of raw materials, fuel, and input supplies have continuously risen amid volatile market conditions, leading to higher product costs. This affects competitiveness and sales speed, causing cash flow imbalances for reinvestment in production.
- **Declining quantity and quality of extractable resources:** Existing mines are being exploited under increasingly harsh conditions, with limited reserves and low mineral content, while new mines have not yet been granted exploration or extraction licenses, resulting in shortages of raw materials for processing plants.
- **Difficulties in recruiting and retaining labor:** The shortage of both unskilled and highly skilled workers persists, while competition for talent among enterprises intensifies, affecting production progress and quality.

• **Inflexibility in administrative procedures:** Despite improvements in administrative reforms, some processes remain rigid and prolong document processing times, directly impacting the progress of the Company's key investment projects.

PART II: BUSINESS PRODUCTION RESULTS IN 2024

2. Results of Investment Project Implementation in 2024

In 2024, Bac Kan Mineral Joint Stock Company made concerted efforts to implement key investment projects, focusing on three main activities: resource extraction, mineral processing, and new project development. Specifically:

2.1. Mineral Extraction Activities

⚡ The Na Bop – Pu Sap mine continued to operate steadily, achieving an extraction output of 19,013.61 tons of ore, maintaining its role as the primary supply source for the Company's processing activities.

⚡ The Na Duong mine produced 4,697.02 tons of ore, making a positive contribution to the total raw ore output for the year.

2.2. Production and Processing Activities

In 2024, the Company's processing plants operated stably and achieved the following specific results:

✦ The lead smelting plant produced 5,368.569 tons of metallic lead (Pb content $\geq 97\%$), ensuring quality according to technical standards and market demand.

✦ The zinc oxide powder production plant reached an output of 4,590.79 tons of ZnO, with content fluctuating between 50–75%.

✦ The Bac Kan fruit processing and beverage plant operated at a minimal level, primarily supplying beverages and processed fruit products for internal use by the Company's production units.

2.3. Mineral Exploration Activities

In 2024, the Company was unable to carry out exploration activities for new mining sites due to:

✦ The exploration auction list was not approved or the mineral exploitation rights were not auctioned off — a mandatory condition to complete subsequent legal procedures.

✦ The Ministry of Industry and Trade issued a document requesting a review, supplementation, and adjustment of the mining site planning; however, by the end of the year, the procedures for submission to the Prime Minister for approval were still incomplete.

2.4. Other Investment Activities

✦ According to Resolution No. 24/2024/NQ-HĐQT dated June 14, 2024, by the Company's Board of Directors, Bac Kan Mineral Joint Stock Company purchased additional shares of Nghe An Bus Station Joint Stock Company (NSB) issued during a capital increase. As a result, Bac Kan Mineral Joint Stock Company increased its ownership to 1,021,680 shares, equivalent to 5.41% of the charter capital of Nghe An Bus Station Joint Stock Company.

It can be seen that in 2024, despite the volatile market conditions, financial constraints, and legal procedural obstacles, the investment activities of Bac Kan Mineral Joint Stock Company, though not reaching the expected level of implementation, have laid an important foundation for key projects in the medium and long term.

Regarding Investment Efficiency:

- The disbursement rate remained low, reaching only over VND 48 billion compared to the planned capital demand of more than VND 1,700 billion (equivalent to 2.84%). The main reason was the incomplete legal conditions such as land procedures, zoning approval, and investment licenses.

- Some projects have made actual progress, notably the tailings reservoir and Phase I infrastructure at Thanh Thịnh Industrial Cluster. Although not yet fully completed, these projects have initially created favorable conditions for deploying technological components in 2025

- Exploration and non-core investment projects have not progressed according to plan, as they are entirely dependent on decisions and procedures from state management agencies.

3. Human Resource Work in 2024

In 2024, the human resource management of Bac Kan Mineral Joint Stock Company was implemented steadily, ensuring it met the operational needs of production and the medium to long-term development orientation.

3.1. Company Executive Board Structure

The Executive Board of the Company remained at five members in 2024. These are experienced personnel with strong practical management capabilities and in-depth knowledge of the Company's operations. They continued to play a central role in coordinating, implementing business operations, and executing the Company's strategic objectives. The specific structure is as follows:

No.	Full Name	Position
1	Dinh Van Hien	General Director
2	Nguyen Tran Nhat	Deputy General Director
3	Vu Gia Hanh	Deputy General Director
4	Tran Van Quyen	Deputy General Director
5	Do Dinh Thang	Deputy General Director

3.2. Organizational Structure and Senior Personnel Transfers

- Organizational Structure: In 2024, the Company's organizational structure remained largely unchanged, continuing to be stable in order to ensure operational continuity and the effective functioning of affiliated units.

- Senior Personnel: The Company dismissed the Director of the Chợ Đồn Mining and Mineral Processing Enterprise and concurrently appointed a Deputy Director in charge of the unit, aiming to strengthen management capacity at this key production site.

3.3. Workforce Size and Distribution

As of the end of 2024, the total number of employees across the Company was 394, with the majority of the workforce concentrated at mining and production units located in Chợ Đồn District, Bắc Kạn Province. While the existing labor force generally meets operational needs, there remains a shortage of highly skilled workers and technical professionals.

3.4. Training and Professional Development

Despite ongoing challenges in production and business operations, the Company maintained its commitment to regular training and development programs, including:

- Occupational safety and industrial hygiene training;
- Training on the use of industrial explosives and chemicals;
- Professional development for technical staff and frontline managers.

All programs were conducted in accordance with current legal regulations and met production safety standards. These training efforts have played a key role in enhancing work capacity, minimizing labor risks, and preparing human resources for future expansion projects.

3.5. Social Welfare Activities

In addition to its core business operations, the Company actively participates in philanthropic and community-oriented initiatives, with a focus on: Distributing Tet gifts to policy beneficiary families, low-income households, and underprivileged students in Bắc Kạn Province; Providing scholarships and gifts to students facing hardship who excel in school, as well as children with disabilities, illnesses, or who are victims of accidents; Donating to war veterans, policy families, and individuals affected by Agent Orange on the occasion of War Invalids and Martyrs Day (July 27); Supporting the "For the Poor" Fund, the Children's Protection Fund, and providing emergency aid to residents of Bắc Kạn Province affected by Typhoon No. 3 (Yagi). The total funding for these social programs in 2024 was nearly VND 500 million.

4. Corporate Governance and Management in 2024

Amid a year marked by market volatility and numerous challenges, the Company's Executive Board demonstrated proactive and effective management, maintaining stable business operations and progressively improving overall performance. Key governance efforts were implemented in a coordinated manner, as outlined below:

- **Proactive risk forecasting and flexible response:** Facing rising input costs, supply chain disruptions, and market fluctuations, the Executive Board promptly assessed the impacts and adjusted operational plans to ensure uninterrupted production. These actions helped sustain growth momentum and manage risks effectively.

- **Sustainable human resource management:** The Company continued to invest in its workforce by maintaining stable wage and income policies, fulfilling all social

insurance and employee welfare obligations as regulated, and enhancing efforts to attract and retain skilled labor for long-term operations.

- **Compliance with State and community obligations:** All financial obligations, including taxes and social insurance contributions, were fulfilled fully and on time. The Company also remained active in social responsibility initiatives, supporting local welfare programs and reflecting its commitment to sustainable development.

- **Infrastructure and technical development investment:** The Company continued upgrading facilities, workshops, workers' housing, and production equipment, thereby enhancing productivity and product quality.

- **Enhanced environmental control and working conditions:** Environmental protection remained a top priority, with the application of advanced technical measures. Efforts were also made to improve working conditions, living spaces, and welfare for employees, aiming to create a safe, healthy, and professional work environment.

Through effective implementation of these governance strategies, Bắc Kạn Mineral Joint Stock Company reinforced its strong management role, laying a solid foundation for sustainable growth and strengthening its position in the mineral industry.

5. Reasons for Underperformance in Certain Targets

1.2.1. Metal Lead Production Target:

Chưa đạt kế hoạch do thiếu hụt nguyên liệu đầu vào phục vụ sản xuất, ảnh hưởng trực tiếp đến quá trình vận hành và sản lượng đầu ra.

1.2.2. Zinc Oxide Powder Production Target:

The supply of raw materials to the plant faced significant difficulties amid intense competition from multiple collectors in the market, leading to insufficient inputs for meeting the planned production volume.

1.2.3. Investment Project Implementation and Disbursement Progress:

- **Tailings Storage Facility Project (Ore Processing Plant):**

Disbursed amount reached VND 5.728 billion out of the planned VND 10 billion. While construction has been completed, the facility cannot yet be put into operation due to unresolved land-related procedures required by regulatory authorities. It is expected to be commissioned in May 2025.

- **Office Building Construction Project in Thai Nguyen:**

The project timeline has been officially extended. However, the application for a construction permit cannot proceed until the adjustments to the zoning plan and technical design are finalized. Consequently, no disbursement has been made during this phase.

- **Exploration Project for Two Mining Sites in the Province:**

No disbursement has been made (VND 0/5 billion), as the company must await approval from relevant authorities regarding the list of mineral rights auctions or a decision to forgo auction requirements, which is a prerequisite for subsequent legal procedures. In addition, in 2024, the Ministry of Industry and Trade issued a directive requiring a review, amendment, and supplementation of the mining site list for submission to the Prime Minister. However, these procedures have not been approved to date.

• ***Technical Infrastructure Development Project at Thanh Thinh Industrial Cluster:***

A total of VND 42.855 billion out of VND 427 billion has been disbursed. This is primarily because, in 2024, only the land clearance and land handover for Phase I were completed, covering 11.3 out of 50 hectares—insufficient to proceed with the subsequent phases.

• ***Zinc Smelting and Electrolyzing Production Complex Project:***

No disbursement has been made (VND 0/1,500 billion) due to the lack of construction land, which severely hinders the investment preparation and implementation progress.

Summary of Key Reasons for Underperformance Against Plan:

- A shortage of input materials, driven by heavy dependence on market supply and collection capacity.
- Complications in administrative and legal procedures, especially concerning land use, zoning, and construction permits.
- Slow disbursement of public investment and key projects, partly due to prolonged approval processes by government agencies, and partly due to the lack of comprehensive and proactive investment preparation.
- Limited coordination between internal departments and government authorities, resulting in delays in completing required procedures.

These factors not only affected short-term business performance but also pose significant risks to the company's long-term investment strategies, expansion plans, and overall competitiveness.

PART III. ORIENTATION AND BUSINESS OPERATION PLAN FOR 2025

I. 2025 OUTLOOK

1. Global Economic Context

In 2025, the global economy is expected to continue facing high levels of risk. The Russia–Ukraine conflict remains unresolved, while tensions between the United States and Iran and instability in the Middle East are intensifying, leading to significant consequences for global energy security and supply chains. The United States' protectionist trade policies, including widespread tariffs (25% on steel,

aluminum, and automobiles; 10–50% on goods from over 60 countries), are placing considerable pressure on international trade and driving up commodity prices.

According to the United Nations, global growth in 2025 will remain below pre-pandemic levels, despite loosened financial conditions and improvements in labor markets. Geopolitical instability, localized inflationary pressures, and the ongoing fragmentation of global value chains continue to be key obstacles to a sustainable recovery.

2. Domestic Economy

Domestically, Vietnam's economy is maintaining a positive recovery trend. The agriculture, forestry, and fishery sectors are growing due to technological transformation and favorable export conditions supported by free trade agreements (FTAs). The industrial sector is projected to grow by 7–9%, driven by public investment, foreign direct investment (FDI), and technological advancements. The services sector is showing clear signs of recovery, particularly in tourism and logistics.

The government is focusing on institutional reform, improving the business environment, removing administrative bottlenecks, and boosting private sector confidence. The ongoing digital transformation, technological adoption, and investment in key infrastructure projects are creating new momentum for economic growth.

Vietnam's proactive integration into new-generation FTAs not only expands its market access but also enhances its position in global supply chains and increases its ability to attract strategic investments.

3. Actual Situation at the Company

Mining and mineral processing activities continue to face significant challenges. Resources at existing mines are rapidly depleting, with increasingly difficult extraction conditions, low reserves and ore grades, all contributing to rising production costs. Meanwhile, new mines proposed by the Company have not yet been licensed for exploration or exploitation, resulting in a shortage of input materials for the plants, which adversely affects operating capacity and business performance.

Unskilled labor is in short supply, recruitment remains difficult, and labor costs are increasing—negatively impacting the Company's production capabilities. This represents a major risk that must be proactively managed.

In this context, the Company needs to continue accelerating production restructuring, optimizing mining and processing procedures, and simultaneously developing a roadmap for new mine investment and a sustainable raw material supply chain. Strategic priorities include applying advanced technologies to enhance product value, reduce costs, and ensure operational safety in an environment of declining resources.

4	Continued Capital Contribution to Tay Nguyen Durian Joint Stock Company	To be implemented based on actual issuance of shares by Tay Nguyen Durian JSC.

2. Mineral Exploration and Mining Sector

In 2025, the Company will continue to focus on maintaining and efficiently exploiting existing mines to ensure a stable supply for processing activities:

✓ **Na Bop – Pu Sap Mine:** Maintain stable extraction capacity with a planned output of 19,250 tons of ore per year.

✓ **Na Duong Mine:** Extract according to the licensed capacity, with an expected output of 4,750 tons of ore per year.

At the same time, the Company will proactively carry out investment preparation by continuing to complete legal dossiers to request exploration permits for the planned mining sites. This will serve as a basis for expanding mining reserves in the medium and long term.

3. Mineral Processing Sector

Processing activities will be maintained and upgraded to enhance ore handling capacity and increase product value:

✓ **Processing Cooperation:** Continue contracting with Thien Ma Group Co., Ltd to process ore from the Na Bop – Pu Sap and Na Duong mines, in line with actual mining output and the partner's processing capacity.

✓ **Processing Infrastructure:** Commission the new tailings pond at the Flotation Workshop (Cho Don), ensuring compliance with technical standards, environmental requirements, and long-term operational safety.

✓ **In-depth Investment:** Complete all legal documentation and implement the zinc smelting and electrolysis complex project at the Thanh Thinh Industrial Cluster (Cho Moi district). The project includes:

- Zinc sulfide processing plant
- Zinc oxide separation and refining plant
- Zinc electrolysis plant
- Supporting facilities and integrated infrastructure

This project is strategically important for enhancing technological capability, achieving production autonomy, expanding the value chain, and marking a milestone in the Company's deep processing development strategy.

4. Other Key Activities

✓ **Industrial Infrastructure:** Focus on implementing the construction of technical infrastructure at Thanh Thinh Industrial Cluster, laying the foundation for receiving and operating large-scale mineral processing industrial projects in the upcoming period.

✓ **Operational Efficiency:** Strengthen comprehensive reviews of production activities, from mining to processing; implement internal control measures and streamline processes to reduce production costs, improve resource utilization efficiency, and enhance environmental protection.

✓ **Development of Administrative Facilities:** Complete legal procedures and promote investment to build the administrative office headquarters in Thai Nguyen city, contributing to enhancing the company's corporate image and consolidating the infrastructure foundation to support long-term management and development activities.

III. STRATEGIC SOLUTIONS TO IMPLEMENT THE BUSINESS PLAN FOR 2025

To effectively carry out the 2025 business plan, the Company proposes several key solution groups, focusing on strategic management, attracting investment, optimizing resources, and improving operational efficiency as follows:

1. Focus on Strong Leadership and Management of Key Projects

✓ Strictly and synchronously implement the 2025 targets and plans according to the established roadmap, prioritizing the timely and quality completion of strategic investment projects, including:

- Thanh Thinh – Cho Moi Industrial Cluster
- Zinc smelting and electrolysis complex at Thanh Thinh Industrial Cluster
- Construction project of the office building in Thai Nguyen city
- Project for obtaining exploration permits for two mining sites within the province

2. Mobilize and Develop Financial Resources for Investment

✓ T Attract strategic investors and call for capital contribution to establish an independent legal entity to manage and develop Thanh Thinh Industrial Cluster with a planned capital scale of 2,000 billion VND.

✓ Issue shares to increase charter capital from 117.38 billion VND to over 300 billion VND, creating strong financial resources to serve priority projects in the medium and long-term development strategy.

✓ Expand cooperation networks and seek stable, long-term raw material suppliers to ensure continuous and effective operation of processing plants.

3. Strengthen Coordination with Relevant Authorities and Local Governments

✓ Proactively and actively work with state management agencies and local authorities to remove obstacles related to mechanisms, policies, and administrative procedures, ensuring investment and production activities are implemented smoothly, legally, and on schedule.

4. Tighten Comprehensive Risk Management and Governance

✓ Enhance management and governance effectiveness in a professional, flexible, and practical manner, closely linked to legal requirements, industry specifics, and the Company's actual conditions.

✓ Establish an early warning and operational risk monitoring system to promptly detect and address bottlenecks and issues, ensuring business efficiency and sustainable development.

5. Consolidate Human Resources System and Improve Organizational Efficiency

✓ Increase individual and collective responsibility, especially among management and technical staff, to proactively implement assigned tasks, stay closely connected to practical realities, and maintain close ties with operational bases.

✓ Promote cross-departmental and inter-unit cooperation, building a culture of synchronized, supportive, and responsible work to improve the efficiency of common goal achievement.

6. Develop Human Resources with a Focus on Safety and Employee Well-being

✓ Strengthen labor discipline, strictly comply with technical and safety production procedures, preventing incidents that affect progress, morale, and productivity.

✓ Maintain job stability, gradually improve income and cultural-spiritual life for employees, ensuring a harmonious balance of interests between the enterprise and employees based on production efficiency.

Above is the report from the Company Executive Board on the production and business results of 2024, and the directions, tasks, and business plans for 2025. We respectfully request the General Meeting of Shareholders to approve.

Respectfully reported.

- *The Law on Securities No. 54/2019/QH14 dated November 26, 2019, of the National Assembly of the Socialist Republic of Vietnam, and its guiding documents;*
- *Decree No. 155/2020/ND-CP dated December 31, 2020, of the Government detailing the implementation of a number of provisions of the Law on Securities;*
- *Decree No. 155/2020/ND-CP dated December 31, 2020, of the Government detailing the implementation of a number of provisions of the Law on Securities;*
- *The Charter of Bac Kan Mineral Joint Stock Corporation;*
- *Based on the discussion and resolution of the Board of Directors dated May 9, 2025, on approving the plan for issuing shares to increase charter capital from owner's equity as proposed by the General Director of Bac Kan Mineral Joint Stock Corporation.*

The Board of Directors of **Bac Kan Mineral Joint Stock Corporation** respectfully submits to the General Meeting of Shareholders ("GMS") for review and approval of the plan to issue shares to increase charter capital from owner's equity, with the following details:

1. Plan for Issuing Shares to Increase Charter Capital from Owner's Equity:

Issuer Name:	Bac Kan Mineral Joint Stock Corporation
Share Name:	Shares of Bac Kan Mineral Joint Stock Corporation
Type of Shares:	Common shares
Stock Code:	BKC
Par Value:	10.000 VND per share

Charter Capital:	117.377.280.000 VND
Total Number of Shares Issued:	11.737.728 shares
Number of Treasury Shares:	0 shares
Number of Outstanding Shares:	11.737.728 shares
Number of Shares Expected to be Issued:	11.737.728 shares
Total Value of Issued Shares at Par Value:	117.377.280.000 VND
Expected Charter Capital Increase:	
- Charter Capital before Issuance:	117.377.280.000 VND
- Expected Additional Capital (at par value):	117.377.280.000 VND
- Charter Capital after Issuance:	234.754.560.000 VND
Purpose of Issuance:	To issue shares to increase charter capital from owner's equity.
Issuance Ratio (No. of shares to be issued / No. of outstanding shares):	100%
Exercise Ratio:	<p>1 : 1</p> <p>(The shares issued to existing shareholders will be allocated through a rights offering at a 1:1 ratio. On the record date for exercising the rights, a shareholder holding 01 share will receive 01 right, and a shareholder holding 01 right will be entitled to receive 01 additional newly issued share.).</p>
Issuance Method:	Issuance to existing shareholders will be conducted through a rights offering; treasury shares will not be entitled to the right to receive shares. The rights to receive shares are non-transferable.
Expected Issuance Period:	In 2025, after the State Securities Commission issues a notification confirming the receipt of the Company's documents for the share issuance to increase charter capital from

	owner's equity.	
Target Recipients of Issued Shares:	Existing shareholders whose names appear on the list of shareholders on the record date (as provided by the Vietnam Securities Depository and Clearing Corporation).

	Total	117.377.280.000 VND
Rounding and Handling of Odd Shares (if any):	<p>The number of shares issued to existing shareholders will be rounded down to the nearest whole number. Any fractional shares arising from the rounding process will be canceled.</p> <p>Since the issuance is on a 1:1 basis (doubling the current number of shares held), no fractional shares are expected to arise.</p> <p>Example: Shareholder A holds 100 shares on the record date. With a 100% issuance ratio, shareholder A will receive: $100 \text{ shares} \times 100\% = 100 \text{ additional shares}$.</p>	
Transfer Restrictions:	The newly issued shares are not subject to transfer restrictions.	
Use of Capital Raised from the Issuance:	To increase the Company's charter capital and supplement working capital for business activities.	
Compliance with Foreign Ownership Limits:	Authorize the Board of Directors to determine a plan that ensures the issuance complies with the applicable foreign ownership limits.	
Distribution Method:	For Deposited Securities: Shareholders will receive new shares via the depository member	

	<p>where they maintain their securities trading account.</p> <p>For Non-Deposited Securities: Shareholders will receive new shares directly at the headquarters of Bac Kan Mineral Joint Stock Corporation.</p>
Purpose of Issuance (reiterated):	To issue shares to increase charter capital from owner's equity.

2. Approval of the amendment to the Charter's provisions regarding the charter capital and the adjustment of the Enterprise Registration Certificate content at the Department of Planning and Investment after receiving approval of the share issuance result report from the State Securities Commission.

3. Approval of the registration for deposit and additional listing of all newly issued shares at the Vietnam Securities Depository and Clearing Corporation (VSDC) and the Hanoi Stock Exchange (HNX).

After completing the issuance, the General Meeting of Shareholders authorizes the Board of Directors to finalize the procedures for registering the deposit and additional listing of all newly issued shares at the Vietnam Securities Depository and Clearing Corporation (VSDC) and the Hanoi Stock Exchange (HNX) in accordance with current laws and regulations.

4. Approval of the authorization for the Company's Board of Directors:

The General Meeting of Shareholders ("GMS") delegates and authorizes the Board of Directors ("BOD") to carry out all tasks related to implementing and completing the issuance of shares to increase charter capital from owner's equity according to the above issuance plan, including but not limited to the following:

- Implementing the issuance, approving the issuance dossier, and distributing shares according to the issuance plan;

- Deciding on detailed content of the share issuance plan and/or amending, supplementing, or changing the issuance plan when necessary based on the Company's actual situation or upon request of competent State authorities to ensure the issuance is successful and complies with legal regulations;

- Selecting an appropriate timing to issue shares after receiving notification from the State Securities Commission confirming the receipt of the full issuance report documents;

- Deciding on the handling of fractional shares arising (if any);

- Deciding and carrying out other related tasks and procedures to implement the share issuance plan in accordance with the law or upon request of competent State authorities.

- Approving the plan to ensure that the share issuance complies with regulations

on foreign ownership limits;

- Carrying out procedures to amend and supplement the Company's Charter to reflect the increased charter capital resulting from the share issuance to increase charter capital from owner's equity, and signing and issuing the amended Charter;

- Approving the increase of charter capital and completing necessary legal procedures to amend the Enterprise Registration Certificate accordingly to reflect the total par value of shares actually issued after completing the share issuance;

- Completing the procedures for additional registration of newly issued shares at the Vietnam Securities Depository and Clearing Corporation (VSDC) and additional listing registration at the Hanoi Stock Exchange (HNX) in accordance with legal regulations;

- Beyond the above authorizations, during the implementation of the issuance plan, the General Meeting of Shareholders authorizes the Board of Directors to supplement, amend, and finalize the issuance plan (including decisions on matters not presented in this capital increase plan) as required by the State regulatory authorities to ensure that the Company's share issuance is carried out legally, compliantly, and safeguards the rights and interests of shareholders and the Company.

The Board of Directors respectfully submits this for the consideration and approval of the General Meeting of Shareholders.

Respectfully submitted.

REGULATIONS

**Nomination and Candidacy for the Additional Election
of Board of Directors Members**

Bac Kan Mineral Joint Stock Corporation term 2021-2026

--

Pursuant to the Enterprise Law 2020 and guiding documents;

Pursuant to the Company Charter and the Internal Governance Regulations of Bac Kan Mineral Joint Stock Corporation;

Bac Kan Mineral Joint Stock Corporation respectfully informs shareholders of the specific regulations on nomination and candidacy for the additional election of members to the Board of Directors for the term 2021-2026 at the 2025 Annual General Meeting of Shareholders as follows:

I. NOMINATION AND CANDIDACY FOR BOARD OF DIRECTORS MEMBERS

1. Number of additional Board members to be elected: 01 person.

2. Standards and conditions for candidates for Board membership:

2.1. Standards for Board candidates:

a) Must have full civil act capacity and not be subject to the disqualification regulations as stipulated in Clause 2, Article 17 of the Enterprise Law 2020;

b) Candidates for Board membership must meet the standards and conditions prescribed in Clause 1, Article 155 of the Enterprise Law 2020 and Clause 1, Article 13 of the Internal Governance Regulations;

c) Independent Board members must meet the standards and conditions specified in Clause 2, Article 155 of the Enterprise Law 2020 and Clause 2, Article 13 of the Internal Governance Regulations.

2.2. Conditions for Nomination and Candidacy for Board of Directors

a) Shareholders holding common shares have the right to combine their voting rights to nominate candidates for the Board of Directors.

b) A shareholder or group of shareholders holding the total voting shares entitled to nominate candidates as follows:

- From 5% to under 10%: allowed to nominate one (01) candidate;
- From 10% to under 30%: allowed to nominate up to two (02) candidates;
- From 30% to under 40%: allowed to nominate up to three (03) candidates;
- From 40% to under 50%: allowed to nominate up to four (04) candidates;
- From 50% to under 60%: allowed to nominate up to five (05) candidates;

- From 60% to under 70%: allowed to nominate up to six (06) candidates;
- From 70% to under 80%: allowed to nominate up to seven (07) candidates;
- From 80% to under 90%: allowed to nominate up to eight (08) candidates.

c) In case the number of Board candidates through nomination and candidacy is still insufficient, the incumbent Board of Directors may nominate additional candidates or organize nominations according to the mechanism stipulated in the Company's Internal Governance Regulations. The procedure for the incumbent Board to introduce Board candidates must be clearly announced and approved by the General Meeting of Shareholders before proceeding with the nomination, as prescribed by law.

3. Procedures for Nomination and Candidacy

- Application/Nomination form for Board of Directors candidates (*using the Company's form*);
- Minutes of group meeting (*using the Company's form*);
- Curriculum vitae self-declared by the candidate (using the Company's form) attached with a copy of ID card/Citizen ID card/Passport; relevant diplomas and certificates related to the candidate's professional qualifications; a copy of ID card/Citizen ID card/Passport of the nominator or their legal representative.
- Valid power of attorney (*if the shareholder authorizes another person to nominate*).

* **Note:** Shareholders or groups of shareholders who do not submit the original nomination documents as required above to Bac Kan Mineral Joint Stock Corporation before the approval of the nomination list at the General Meeting, or whose nomination does not comply with the provisions of the Enterprise Law and the Company's Internal Governance Regulations, the nominations will be considered invalid at the General Meeting.

4. Selection of Candidates

Based on the nomination applications from shareholders or groups of shareholders and the self-declared curriculum vitae of candidates, the Organizing Committee will compile a list of candidates who meet the qualifications and conditions for election to the Board of Directors. This list will be submitted to the General Meeting of Shareholders for approval and subsequent voting.

II. ELECTION OF THE BOARD OF DIRECTORS

1. Voting rights and eligibility:

Common shareholders (*according to the shareholder list provided by Vietnam Securities Depository on May 20, 2025 — the record date for attending the 2025 Annual General Meeting of Shareholders*) may exercise their voting and election rights at the Meeting after completing registration and eligibility verification at the Meeting.

2. Principles and election method:

a. The election of Board members shall be conducted by cumulative voting, whereby each Shareholder/authorized representative has a total number of votes equal to the total number of shares multiplied (x) by the number of Board members to be elected. Shareholders may allocate all their votes to one or several candidates.

b. Shareholders/authorized representatives may distribute their votes by assigning a number of votes to each candidate in the corresponding box (the total votes allocated to candidates must not exceed the total votes of the Shareholder/authorized representative) or distribute votes evenly among selected candidates but not exceeding the number of Board members to be elected.

c. Ballots shall be placed into the ballot box under the supervision of the Chairman of the Meeting and the voting will conclude when the last shareholder deposits their ballot.

3. Ballots and how to mark the ballots:

- Shareholders or their authorized representatives will be issued one ballot for electing Board members corresponding to their shareholder code.

- In case of errors on the ballot, shareholders may request the vote counting committee to replace it with a new ballot.

- How to mark the ballot:

+ Shareholders must personally write the number of votes for each candidate in the blank box next to the candidate's name on the ballot, up to the maximum number of members to be elected. In case of a valid authorization (with power of attorney), the authorized person has full voting rights.

+ If not voting for a candidate, the shareholder should write "0" or leave the "Number of votes" column blank for that candidate.

+ Shareholders or their authorized representatives attending the meeting may cumulate their votes for one or several candidates or choose not to vote for any candidate. If allocating all votes to one or several candidates, the representative shall write the total number of votes in the corresponding box(es). If distributing votes unevenly among candidates, the representative must specify the number of votes in the "Number of votes" box for each candidate accordingly.

- Invalid ballots:

+ Ballots not issued by the Organizing Committee;

+ Ballots with votes exceeding the number of members to be elected, or with names of persons other than those nominated or candidated;

+ Ballots with a total number of votes for candidates exceeding the total votes held by the shareholder or authorized person; or ballots selecting more candidates than the number approved by the General Meeting;

+ Ballots that are erased, torn, corrected, or contain additional writing;

- + Ballots submitted to the vote counting committee after voting has ended and vote counting has begun;

- + Ballots without signatures of the shareholder or their authorized representative.

- Blank ballots: These are ballots where no votes are cast for any candidate or ballots issued at the Meeting but not deposited into the ballot box.

4. Vote Counting Committee and Responsibilities of the Vote Counting Committee:

The Vote Counting Committee is nominated by the Chairman of the Meeting and approved by the General Meeting of Shareholders. The responsibilities of the Vote Counting Committee include:

- Inspecting the ballot box in the presence of attending shareholders;

- Providing detailed instructions on how to mark ballots according to the cumulative voting method;

- Checking the validity of ballots and objectively verifying the election results, being responsible for the accuracy of the election results;

- Summarizing the election results and preparing the Vote Counting Minutes. The minutes must be signed by all members of the Vote Counting Committee to confirm the accuracy, transparency, and proper procedure of the vote counting process;

- Handing over the Vote Counting Minutes and all ballots to the Secretary of the Meeting;

- Working with the Chairman of the Meeting to resolve any complaints (if any) related to the election and reporting to the General Meeting of Shareholders for decision;

- The Vote Counting Minutes must clearly state the following:

- + The total number of voting shares present at the Meeting; the number of valid and invalid ballots, etc.;

- + The number of votes received by each candidate;

- + The percentage of votes each candidate received out of the total voting shares present at the Meeting;

- The Head of the Vote Counting Committee is responsible for the procedures, processes, and legal compliance of the voting at the Meeting and will report the vote counting results on behalf of the Chairman during the Meeting.

5. Election Principles

- Elected candidates for the Board of Directors (BOD) members are determined based on the highest number of votes in descending order until the required number of members is met.

- In the event that multiple candidates receive the same number of votes and it is necessary to reduce the number to reach the required number of elected members, a re-election will be held among these candidates to decide the winners.

- If after the re-election, the required number of BOD members or Supervisory Board (BKS) members is still not met, the General Meeting of Shareholders may vote to leave the positions vacant and fill them in the next General Meeting.

III. EFFECTIVENESS

This election regulation takes effect immediately after being approved by the General Meeting of Shareholders and will expire when the 2025 Annual General Meeting of Shareholders of Bac Kan Mineral Joint Stock Corporation concludes (on June 18, 2025).

Respectfully submitted to the General Meeting for consideration and approval./.

AUDITORS

The Company's financial statements for the year ended 31st December 2024 have been audited by CPA VIETNAM Auditing Company limited - A Member Firm of INPACT.

THE BOARD OF GENERAL DIRECTORS' RESPONSIBILITY

The Company's Board of General Directors is responsible for preparing the financial statements, which give a true and fair view of the financial position as well as of its income and cash flows statements in year. In preparing these financial statements, the Board of General Directors is required to

- Select appropriate accounting policies and apply them consistently;
- Make judgments and estimates prudently;
- State clearly whether the Accounting Standards applied to the Corporation are followed or not, and all the material differences from these standards are disclosed and explained in the Financial Statements;
- Design and implement an effective internal control for the purpose of properly preparing and presenting the Financial Statements so as to minimize errors and frauds;
- Prepare the Financial Statements of the Company on the going-concern basis, except for the cases that the going-concern assumption is considered inappropriate;

The Board of General Directors is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Company and to ensure that the financial statements comply with Vietnamese Standards on Accounting, Vietnamese Accounting System and relevant legal regulations in preparation and presentation of the financial statements. The Board of General Directors is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of General Director confirms that the Company has complied with the above requirements in preparing the financial statements.

For and on behalf of the Board of General Directors,

Dinh Van Hien

General Directors

No: 156/2025/BCKT-CPA VIETNAM-NV2

INDEPENDENT AUDITORS' REPORT

**To: Shareholders,
Boards of Management, Supervisors and General Directors
Bac Kan Mineral Joint Stock Corporation**

We have audited the accompanying financial statements of Bac Kan Mineral Joint Stock Corporation as set out on pages 06 to pages 34, prepared on 18/3/2025, including the Balance sheet as at 31/12/2024, and the Income Statement, and Cash flows Statement for the year then ended, and Notes to the financial statements.

Responsibility of the Board of General Directors

The Company's Board General of Directors is responsible for the true and fair preparation and presentation of these financial statements in compliance with Vietnamese Accounting Standards, Vietnamese Accounting System and the statutory requirements relevant to the preparation and presentation of the financial statements, and for the internal control as the Board of General Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of Auditors

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. These Standards require us to comply with the Standards and codes of ethics, to plan and perform the audit to obtain reasonable assurance as to whether the Company's separate financial statements are there any significant errors or not.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The audit procedures are selected based on the auditor's judgment, including the assessment of risks of material misstatement in the financial statements due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design appropriate audit procedures to the actual situation, which is not intended to give an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion of Auditors

In our opinion, the accompanying financial statements gives a true and fair view of, in all material respects, the financial position of the Company as at 31 December 2024 and the results of its operations and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of the financial statements in Vietnam.
